VUONG NGOC HUE
SOFTWARE TESTER INTERN

0334548218 | ngochuevuong12@gmail.com | https://vuongngochue.id.vn/

As a final-year Software Engineering student passionate about Automation Test and software quality assurance, I am seeking an internship opportunity where I can contribute my skills while gaining real-world experience in a professional environment.

SKILLS

Selenium WebDriver	TestNG/JUnit	Postman	CI/CD
Java	SQL	Git/GitHub	Agile/Scrum

PROJECT

Train Ticket Booking Application   **Oct 2024 - Dec 2024**

Description: An internal web application for managing ticket sales, seat booking, cancellations, and revenue.

Technologies used: Java, Selenium WebDriver, TestNG, SQL Server, Postman

Responsibilities:
- Developed automated test scripts for UI using Selenium + TestNG
- Designed reusable test cases and maintained test data
- Performed API testing using Postman for booking and cancellation endpoints
- Wrote SQL queries for backend validation
- Logged, tracked bugs, and collaborated with developers to resolve issues

Outcome: Increased test reliability and coverage; ensured high-quality delivery before deployment

GitHub Profile: https://github.com/HueVuong12/TrainTicket

Movie Ticket Booking Application   **Aug 2024 - Sep 2024**

Description: An application for staff to select movies, book tickets, and manage revenue.

Technologies used: SQL Server, Manual Testing, Java

Responsibilities:
- Created and executed test cases for functional testing
- Verified data via SQL queries
- Reported and tracked bugs
- Collaborated with developers to verify fixes
- Contributed to database and API development

Outcome: Identified logical errors in ticket booking, improved user experience

EDUCATION   **2021 – Present**

Industrial University of Ho Chi Minh City
- Major in Software Engineering

ADDITIONAL INFORMATION
- AOTS Scholarship (sponsored by the Government of Japan)
- Attended selenium course at Intellipaat
- Activities: G'CONTEST 2024 – Participant. Utilized Python and SQL Server for data-related tasks and problem solving.
- Observation Program at Mobifone – March 2025
